FREQUENTLY ASKED QUESTIONS

Why do I need Malpractice insurance?

Malpractice insurance is often required by employer contracts and state licensing boards for those practicing in the field of orthodontics. As coverage helps protect you and your practice from the stress of handling a claim alone, as well as the high cost of legal fees and judgements, Malpractice insurance offers peace of mind to many orthodontists.

What makes Malpractice from the AAO Endorsed Insurance Program beneficial?

Malpractice insurance from the AAO Endorsed Insurance Program is designed exclusively for AAO members, with coverage built around the needs of orthodontic practices. It is backed by Arch, a financially strong and established carrier, and includes flexible options for different practice needs, career stages and coverage preferences. Members also benefit from orthodontist involvement in claims reviews, risk management resources and the convenience of working with one trusted program administrator for multiple insurance needs.

How do I purchase Malpractice insurance from the AAO Endorsed Insurance Program?

Our streamlined application is tailored to orthodontists. Submit your application and the AAO Endorsed Insurance Program will review and provide a competitive quote. Once your invoice is paid, you will be protected with the only Malpractice insurance endorsed by the AAO.

How do I switch my coverage from another insurer?

You may not have to wait until renewal to make a change. Many policies allow cancellation prior to expiration, often with a prorated refund.

Prefer to revisit this closer to renewal? Sign up for a reminder from the AAO Endorsed Insurance Program at AAO-Insurance.com/Malpractice, and we'll send you details about applying for AAO Endorsed Malpractice closer to your renewal.

What limits are available?

Limits are available at several levels to fit varying orthodontist needs:

- \$1M per occurrence / \$3M aggregate
- \$2M per occurrence / \$4M aggregate

For questions regarding patient compensation fund coverage, state-specific requirements or higher limits, contact the experienced AAO Endorsed Insurance Program team for personalized guidance and support.

What is the difference between claims-made and occurrence coverage?

Claims-made policies require a claim to be made against the insured and reported to the insurer during the policy period, or effective dates. A claims-made policy may require tail coverage to be purchased in case a claim is filed after your coverage expires.

Occurrence policies protect the policy holder from a covered incident even if the claim is made after the policy is no longer active, allowing for a larger window to report claims. Because of the length of time a claim can be filed with an occurrence policy, coverage may be more expensive than a claims-made policy but tail coverage is not required.

The AAO Endorsed Insurance Program offers both claims-made and occurrence forms for Malpractice insurance so you can select the policy type that best fits your needs.
